

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PREAMBLE

To elevate the character and advance the interests of the profession of teaching, and to promote the cause of popular education in the United States, we, whose names are subjoined, agree to adopt the following

## CONSTITUTION

### ARTICLE I—NAME

This association shall be styled the NATIONAL EDUCATIONAL ASSOCIATION.

### ARTICLE II—DEPARTMENTS

SECTION 1. It shall consist of eighteen departments: first, of Superintendence; second, of Normal Schools; third, of Elementary Education; fourth, of Higher Education; fifth, of Manual Training; sixth, of Art Education; seventh, of Kindergarten Education; eighth, of Music Education; ninth, of Secondary Education; tenth, of Business Education; eleventh, of Child Study; twelfth, of Physical Education; thirteenth, of Natural Science Instruction; fourteenth, of School Administration; fifteenth, the Library Department; sixteenth, of Special Education; seventeenth, of Indian Education; and eighteenth, the National Council of Education.

SEC. 2. Other departments may be organized in the manner prescribed in this constitution.

### ARTICLE III—MEMBERSHIP

SECTION 1. There shall be three classes of members, namely, active, associate, and corresponding.

SEC. 2. Teachers and all who are actively associated with the management of educational institutions, including libraries and periodicals, may become active members. All others who pay an annual membership fee of two dollars may become associate members.

Eminent educators not residing in America may be elected by the Directory to be corresponding members. The number of corresponding members shall at no time exceed fifty.

SEC. 3. Any person eligible may become an active member upon application indorsed by two active members, and the payment of an enrollment fee of two dollars and the annual dues for the current year.

Active members only have the right to vote and to hold office in the general Association or in the several departments.

All active members must pay annual dues of two dollars, and will be entitled to the volume of *Proceedings* without "coupon" or other conditions. The annual membership

fee shall be payable at the time of the annual convention, or by remittance to the Secretary before September 1 of each year. Any active member may discontinue membership by giving written notice to the Secretary before September 1, and may restore the same only on payment of the enrollment fee of two dollars and the annual dues for the current year.

All life members and life directors shall be denominated active members, and shall enjoy all the powers and privileges of such members without the payment of annual dues.

Associate members may receive the volume of *Proceedings* in accordance with the usual "coupon" conditions, as printed on the membership certificate.

Corresponding members will be entitled to the volume of *Proceedings* without the payment of fees or other conditions.

SEC. 4. The names of active and corresponding members only will be printed in the volume of *Proceedings*, with their respective educational titles, offices, and addresses, the list to be revised annually by the Secretary of the Association.

#### ARTICLE IV—OFFICERS

SECTION 1. The officers of this Association shall consist of a President, twelve Vice-Presidents, a Secretary, a Treasurer, a Board of Directors, a Board of Trustees, and an Executive Committee, as hereinafter provided.

SEC. 2. The Board of Directors shall consist of the President of the National Educational Association, First Vice-President, Secretary, Treasurer, chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the Association for the term of one year, or until their successors are chosen, and of all life directors elected previous to July 10, 1895.

All past presidents of the Association now living (July 10, 1895), and all future presidents at the close of their respective terms of office, and the United States Commissioner of Education, shall be life directors of the Association.

The President of the National Educational Association, First Vice-President, Treasurer, chairman of the Board of Trustees, and a member of the Association to be chosen annually by the Board of Directors, which member shall hold office for one year, shall constitute the Executive Committee.

SEC. 3. The elective officers of the Association, with the exception of the Secretary, shall be chosen by the active members of the Association by ballot, unless otherwise ordered, on the third day of each annual session, a majority of the votes cast being necessary for a choice. They shall continue in office until the close of the annual session subsequent to their election, and until their successors are chosen, except as hereinafter provided.

SEC. 4. Each department shall be administered by a president, vice-president, secretary, and such other officers as it shall deem necessary to conduct its affairs; but no person shall be elected to any office of the Association, or of any department, who is not, at the time of the election, an active member of the Association.

SEC. 5. The President shall preside at all meetings of the Association and of the Board of Directors, and shall perform the duties usually devolving upon a presiding officer. In his absence, the first vice-president in order, who is present, shall preside; and in the absence of all vice-presidents, a *pro-tempore* chairman shall be appointed on nomination, the Secretary putting the question.

SEC. 6. The Secretary shall keep a full and accurate report of the proceedings of the general meetings of the Association and all meetings of the Board of Directors, and shall conduct such correspondence as the directors may assign, and shall have his records present at all meetings of the Association and of the Board of Directors. The secretary of each department shall, in addition to performing the duties usually pertaining to his office, keep a list of the members of his department.

SEC. 7. The Treasurer shall receive, and under the direction of the Board of Trustees hold in safe-keeping, all moneys paid to the Association; shall expend the same only upon the order of said board; shall keep an exact account of his receipts and expenditures, with vouchers for the latter, which accounts, ending the 1st day of July each year, he shall render to the Board of Trustees and, when approved by said board, he shall report the same to the Board of Directors. The Treasurer shall give such bond for the faithful discharge of his duties as may be required by the Board of Trustees; and he shall continue in office until the first meeting of the Board of Directors held prior to the annual meeting of the Association next succeeding that for which he is elected.

SEC. 8. The Board of Directors shall have power to fill all vacancies in their own body; shall have in charge the general interests of the Association, excepting those herein intrusted to the Board of Trustees; shall make all necessary arrangements for its meetings, and shall do all in its power to make it a useful and honorable institution. Upon the written application of twenty active members of the Association for permission to establish a new department, it may grant such permission. Such new department shall in all respects be entitled to the same rights and privileges as the others. The formation of such department shall in effect be a sufficient amendment to this constitution for the insertion of its name in Art. II, and the Secretary shall make the necessary alterations.

SEC. 9. The Board of Trustees shall consist of four members, elected by the Board of Directors for the term of four years, and the President of the Association, who shall be a member *ex officio* during his term of office. At the election of the trustees in 1886, one trustee shall be elected for one year, one for two years, one for three years, and one for four years; and annually thereafter, at the first meeting of the Board of Directors held prior to the annual meeting of the Association, one trustee shall be elected for the term of four years. All vacancies occurring in said Board of Trustees, whether by resignation or otherwise, shall be filled by the Board of Directors for the unexpired term; and the absence of a trustee from two successive annual meetings of the board shall forfeit his membership therein. The Board of Trustees thus elected shall constitute the body corporate of the Association, as provided in the certificate of incorporation under the provisions of the Act of General Incorporation, Class Third, of the Revised Statutes of the District of Columbia, dated the 24th day of February, 1886, at Washington, D. C., and recorded in Liber No. 4, "Acts of Incorporation for the District of Columbia."

SEC. 10. It shall be the duty of the Board of Trustees to provide for safe-keeping and investment of all funds which the Association may receive from donations; and the income of such invested funds shall be used exclusively in paying the cost of publishing the annual volume of *Proceedings* of the Association, excepting when donors shall specify otherwise. It shall also be the duty of the board to issue orders on the Treasurer for the payment of all bills approved by the Board of Directors, or by the President and Secretary of the Association acting under the authority of the Board of Directors; and, when practicable, the trustees shall invest all surplus funds exceeding one hundred dollars that shall remain in the hands of the Treasurer after paying the expenses of the Association for the previous year.

SEC. 11. The Board of Trustees shall elect the Secretary of the Association, who shall also be secretary of the Executive Committee, and shall fix the compensation and the term of office for a period not to exceed four years.

#### ARTICLE V—MEETINGS

SECTION 1. The annual meeting of the Association shall be held at such time and place as shall be determined by the Board of Directors.

SEC. 2. Special meetings may be called by the President at the request of five directors.

SEC. 3. Any department of the Association may hold a special meeting at such time and place as by its own regulations it shall appoint.

SEC. 4. The Board of Directors shall hold its regular meetings at the place and not less than two hours before the assembling of the Association.

SEC. 5. Special meetings may be held at such other times and places as the board or the President shall determine.

SEC. 6. Each new board shall organize at the session of its election. At its first meeting a committee on publication shall be appointed, which shall consist of the President and the Secretary of the Association for the previous year, and one member from each department.

#### ARTICLE VI—BY-LAWS

By-laws not inconsistent with this constitution may be adopted by a two-thirds vote of the Association.

#### ARTICLE VII—AMENDMENTS

This constitution may be altered or amended at a regular meeting by the unanimous vote of the members present; or by a two-thirds vote of the members present, provided that the alteration or amendment has been substantially proposed in writing at a previous meeting.

#### BY-LAWS

\*1. At the first session of each annual meeting of the Association there shall be appointed by the President a committee on resolutions; and at the third session of such meeting there shall be appointed a committee on nominations, consisting of one member from each state and territory represented, the same to be appointed by the President on the nomination of a majority of the active members from such state or territory present at the meeting called for the purpose of making such nomination; provided, however, that such appointment shall be made by the President without such nomination, when the active members in attendance from any state or territory shall fail to make a nomination.

The meetings of active members to nominate members of the nominating committee shall be held at 5:30 P.M. on the first day of the annual meeting of the Association, at such place as shall be announced in the general program.

2. The President and Secretary shall certify to the Board of Trustees all bills approved by the Board of Directors.

3. Each paying member of the Association shall be entitled to a copy of its *Proceedings*.

4. No paper, lecture, or address shall be read before the Association or any of its departments in the absence of its author, nor shall any such paper, lecture, or address be published in the volume of *Proceedings*, without the consent of the Association, upon approval of the Executive Committee.

5. It shall be the duty of the President, Secretary, and Treasurer of the Association to appoint annually some competent person to examine the securities of the Permanent Fund held by the Board of Trustees, and his certificate, showing the condition of the said fund, shall be attached to the report of the Board of Trustees.

GENTLEMEN: In accordance with instructions received from Mr. A. G. The President explained that a contest had arisen over the selection of a member of the Committee on Nominations from the state of Florida, and as the action of neither of the contesting delegations appeared to conform to the by-law governing such selection, he had, in accordance with his constitutional authority, appointed a member not belonging to either delegation.

The general topic of the session, "School Gardens, City School Yards, and the Surroundings of Rural Schools," was discussed in papers presented by Orville T. Bright, principal of the James R. Doolittle School, Chicago, Ill.; Henry L. Clapp, principal of the George Putnam School, Boston, Mass.; Charles R. Skinner, state superintendent of public instruction, Albany, N. Y.; and W. W. Stetson, state superintendent of public education, Augusta, Me.

At the close of the meeting W. N. Sheats, of Florida, presented a protest against the action of the President in the appointment of a member of the Committee on Nominations from that state. He was answered by Miss Clem Hampton, who represented the other of the two contesting delegations. The incident was closed by the remark of the President that the protest and the answer to it illustrated both the occasion and the expediency of appointing a third party.

MINUTES OF THE ANNUAL BUSINESS MEETING OF ACTIVE MEMBERS  
OF THE NATIONAL EDUCATIONAL ASSOCIATION HELD  
IN HUNTINGTON HALL, JULY 9, 1903

The meeting was called to order by President Charles W. Eliot at 12:30 P. M. About two hundred members were present.

The reading of the minutes of the last meeting at Minneapolis, July 8, 1902, was, on motion, omitted, and they were approved as printed in the volume of *Proceedings* of the Minneapolis convention.

The Treasurer, W. M. Davidson, of Topeka, Kan., presented his annual report, printed copies of which, bearing the certificate of approval of the Board of Trustees, were distributed to the members.

On motion of Charles H. Keyes, of Connecticut, the reading of the report in detail was dispensed with, and the report was approved and ordered printed in the annual volume.

The chairman of the Board of Trustees, A. G. Lane, of Chicago, Ill., presented the seventeenth annual report of that body and distributed printed copies of the same. A brief explanation was made by Chairman Lane regarding the Kansas bonds which were purchased about fifteen years ago. A large proportion of them were reported as paid, and confidence was expressed that most, if not all, of the others will be paid. Attention was called to that part of the report showing that in certain cases payment of either principal or interest was in default. Chairman Lane also reported that the Board of Trustees had authorized him to take legal steps to collect the overdue amounts in all cases where it may be found possible to do so.

On motion of J. M. Greenwood, of Missouri, the report was received and approved, and ordered printed in the annual volume of *Proceedings*.

The report of the Committee on Nominations was presented by the chairman, L. D. Harvey, of Wisconsin, as follows:

Respectfully submitted,

(Signed) L. D. HARVEY, *Chairman.*(Signed) WM. H. ELSON, *Secretary.*

On motion of I. C. McNeill, of Wisconsin, the Secretary was instructed to cast the ballot of the Association for the nominees as reported. The ballot was cast as ordered, and the nominees were declared elected for the ensuing year.

Nicholas Murray Butler, of New York, called attention to by-law No. 4, and moved the adoption of the following resolution :

*Resolved*, That, subject to the approval of the Executive Committee, as provided by the existing by-law No. 4, the memorial address upon the late President William M. Beardshear, prepared for the meeting of the National Council of Education by President William F. King of Mount Vernon College, Ia., be incorporated in the published *Proceedings*, despite the fact that the paper itself was not read, President King having been detained by serious illness in his family.

The motion was unanimously carried.

MR. BUTLER then asked permission to offer an amendment to by-law No. 1, and explained the necessity for the proposed amendment as follows :

The by-law relating to the appointment of the nominating committee as it now stands is unworkable. [Reads the by-law.] It has been tried for six years. The records show that it has never been complied with, except possibly in one or two cases. The records of the meetings of active members held this year show that the merest handful attended the state meetings; in some cases fewer than 5 per cent. of those present here in Boston. That the by-law has broken down and is incapable of operation is, I think, the judgment of a large majority of the members of the Association from every state who have expressed an opinion upon this subject. The fact that the by-law is unworkable became apparent almost as soon as it was adopted. Each year it has been urged that the time had come to change it, but each year any proposal for a change has been withheld in order to obtain a wider experience. I know that I am stating a fact when I say that at this great meeting only an insignificant minority participated in any way in the action contemplated by the existing by-law. The President of the Association has found that nearly if not quite every certificate sent to him bore upon its face evidences of irregularity. I propose, therefore, that we meet the situation by striking out an impracticable and unworkable by-law, and go back to the condition of things which existed here in this Association for thirty-six years, by which the power to appoint this committee was placed in the hands of the President for the year. He can be held responsible for his action; he is known to all of us; and he is chosen because we know him and deem him worthy of the responsibility. This is the democratic and the effective method of procedure. I ask, therefore, that a two-thirds vote be given, as required by the constitution, for the following amendment to the by-laws, and I offer, Mr. President, a resolution to effect the amendment, as follows :

*Resolved*, That the by-laws of the National Educational Association be amended as follows :

Existing by-laws numbered 2, 3, 4, and 5 to be numbered 3, 4, 5, and 6, respectively.

For existing by-law numbered 1, the following by-laws numbered 1 and 2 to be substituted :

1. At the first session of each annual meeting of the Association there shall be appointed by the President a committee on resolutions.
2. Not later than the third session of each annual meeting of the Association there shall be appointed by the President a committee on nominations, consisting of one active member from each state and territory represented at the meeting.

I move, sir, the adoption of this resolution, noting at the same time that it requires for its passage a two-thirds vote of those present and voting.

MISS MARGARET A. HALEY, of Illinois: Mr. President, I rise to speak against that resolution and the proposed amendment to the by-laws. I am opposed to the centralizing of power any more than we have already done in the National Educational Association. I believe the proposed amendment would be a backward movement. It is against democracy; it is centralization. It would take away from the active members in each state the small measure of power which they now have and place it in the hands of one who is selected entirely apart from the action or choice of the state members. I am opposed to the proposed amendment on general principles, and I am opposed to it for special reasons. Illinois had 111 active members present on Tuesday morning at 9 o'clock at the state headquarters at the meeting of active members, and there were some ten or twelve more who came in a few minutes too late to vote. I do not know whether it is because the women of Illinois have awakened to the situation and to their power as shown by the vote cast at that meeting, 74 to 37, that this attempt is made to shut us out, but it looks like it. If you men pass this amendment, you certainly leave yourselves open to that charge, whether right or wrong. Under the present constitution and by-laws you have left an opening for the women. Why do you want to close it? The women pay about nine-tenths of the money in this Association, and they make up a corresponding proportion of the attendance at the convention. If such an important matter as this was intended to be brought before this body, at least one year's notice should have been given. It certainly should not be passed today. It should be postponed for one year, and if next year we cannot secure enough activity on the part of the members to make the present by-law operative, then bring up this amendment. But for myself, I think it is wrong in principle. I believe the proper people to make the selection of members of the nominating committee are the people from each state. If there were only three present at any meeting, you have no right to take away the rights of those three members. Do you think the people would tolerate for a moment the proposal to take away their right to vote at the primary elections because 95 per cent. of the qualified voters stayed at home? Not at all. You men would not do it. I move that the resolution be deferred for one year.

THE PRESIDENT: Miss Haley has made the motion that consideration of the resolutions presented by President Butler be postponed until next year.

CARROLL G. PEARSE, of Nebraska: I regret to see any attempt made in this Association to line up the men and the women on opposite sides of this question. I think this matter should be considered as one of principle, to be decided on its own merit, and not upon a division of the sexes. The by-law which it is now proposed to change was passed in response to what was regarded as essential in the conduct of the affairs of the Association. That by-law has in many instances been inoperative for lack of a quorum; still I believe that it is a useful rule. I should think it extremely unfortunate if this Association should take away from its members the right which they now enjoy of participating in this matter. I move, therefore, as an amendment to Dr. Butler's motion, that by-law No. 1 be so amended as to provide that a majority of the active members present at the meeting called for the purpose of selecting the member of the nominating committee, if more than three, shall have the right to select the member of the nominating committee.

THE PRESIDENT: Does President Butler accept the amendment?

MR. BUTLER: I should prefer the amendment to the existing by-law, but I should prefer my motion to either of them.

THE PRESIDENT: Does that mean that President Butler declines to accept the amendment?

MR. BUTLER: Yes.

S. Y. GILLAN, of Wisconsin: I rise to support Miss Haley's motion. I wish she had made the motion for indefinite postponement, instead of to postpone for one year. To me this seems to be a reappearance of the old spirit of centralization, which was scotched, but not killed, in 1897, when the meeting was held in Milwaukee.

THE PRESIDENT: It is entirely impossible to obtain evidence that the by-law has been conformed to during its existence; it was not conformed to in a single case in the meetings of this week for the election of members of the nominating committee.

MR. GILLAN, of Wisconsin: Why do you give that interpretation? May not that word "attendance" mean attendance at that particular meeting of the active members from that state? It is entirely a matter of interpretation.

THE PRESIDENT: The reading of the by-law is this: "The same to be appointed by the President on the nomination of a majority of the active members in attendance from such state or territory," etc. It is perfectly clear that the by-law expects an action in nomination by the majority of the active members present at the Association meeting, and I found that the expectation had not been realized in a single case this year. Moreover, it is next to impossible, even in a small convention, and it was absolutely impossible in this Boston convention, to ascertain in season what number of active members was in attendance from any particular state or territory. The Secretary could not furnish that information.

THOMAS W. BICKNELL, of Rhode Island: The principle of the present by-law is a correct one. Representatives of the various states should have the power to elect the officers called for by this by-law. Of that there can be no question. It seems to me we have reached the point in state and national life where that is recognized. It seems to me that this matter should go over for another year. It has now been brought to our notice. President Butler has very clearly set forth the condition of things, and I have no doubt that that condition will be removed, and, instead of three members being present, I believe the majority of active members from every state will be present hereafter. I hope, therefore, that the motion of Miss Haley will prevail, that action on this matter may be postponed, and that we may be allowed a year for the consideration of the question.

JAMES H. CANFIELD, of New York: I simply desire to say that what I have heard here today with regard to centralization and autocracy is just as absurd and as foreign to the spirit of this Association as the talk of deciding this question by a division of the sexes. I very earnestly desire that this matter shall be considered on its merits, and that a motion made here to amend the by-laws shall not immediately bring up someone who will speak about movements that have been "scotched, but not killed," and use language which certainly does not properly apply to the motives, the purpose, or the thought of any member of this Association as I have known it for over twenty years.

EUGENE BOUTON, of Massachusetts: I move an amendment to the motion offered by Dr. Butler so that the by-law shall provide that any number in attendance at this meeting of active members shall constitute a quorum.

MISS HALEY: Mr. President, I wish to accept that amendment in place of my motion.

THE PRESIDENT: Miss Haley withdraws her motion to postpone until next year. Does President Butler accept the amendment to his motion made by Mr. Bouton?

MR. BUTLER: No, sir, I do not. I prefer to have a vote upon my motion.

MISS GERTRUDE EDMUND, of Massachusetts: I wish to say that, altho' I am a warm admirer of Miss Haley and the work she has done, I do not agree that we have not been fairly treated by the gentlemen of this convention. I want to thank the gentlemen who are present for all that they have done for the women who have shown an interest in the work of the Association.

MR. BUTLER: I trust that the members of the Association will consent to vote upon the pending motion solely from the standpoint of principle and of practical effectiveness,

and not be misled by wholly irrelevant matters. I should not have made any motion whatever had I not been very jealous of the Association's standards of effectiveness and methods of procedure. Nothing would please me more than to see 75 per cent. or 100 per cent. of the active membership of each state present at every meeting and co-operating to elect the member of the nominating committee from that state. But it is absolutely and utterly impracticable. Experience has shown this conclusively. Anyone who will examine the records of this year's state meetings and those of previous years will find that, under the guise of transferring a privilege to active members, this privilege has been transferred to one or two active members in many of the states. This is the very reverse of democratic. It is a concentration of power in a wholly irresponsible group of persons. I saw a certificate last year which was signed by a member of the Association saying that at the meeting the number of active members present was "one," that the meeting nominated for member of the nominating committee "himself," and he signed the certificate as chairman of the meeting. There are several certificates in my hand which show just about the same facts. That is not a proper condition of affairs. My proposition for a change is a purely practical proposition. This is a very large and businesslike association, and why shouldn't it do its business in a businesslike and responsible way? Why let ourselves be confused by an abstract and untrue proposition about "democracy" when we are faced by six years' experience of the most undemocratic action imaginable? During all of this time the President has appointed the nominating committee because of the illegality of the elections themselves or the illegality of almost every record that came to his hands. Therefore I do not see how the situation would be improved by decreasing the number of active members who are obliged to attend in order that this election may be legal, as would be the effect of the proposed amendment to my resolution; nor do I see the use of postponing action upon this question, now that it has been raised. I should prefer to see a direct vote taken in order that this matter may be settled.

THOMAS A. MOTT, of Indiana: To me it seems like a backward step to take away from the members of the several states the power to make the selections for the nominating committee. In my opinion, it is better that three who are interested shall make the nomination than that a by-law should be so carefully constructed that the members in attendance from the several states shall have no voice in this matter. State representation was the thing we fought for in Milwaukee, and I am in favor of voting for it here.

THE PRESIDENT: Before the question is put I will take the liberty of stating to the members just how the by-law has worked this year. I was simply an observer. I wished to conform to this by-law, of course. I immediately found that to be impossible. I found that I was obliged personally to appoint all the members of this nominating committee. If the amendment which is made by Mr. Bouton prevails, the appointing, however, will lie in the hands of whatever small number of persons attend the meetings by states, and the President of the Association will then accept and confirm those nominations. A very small number of persons will, presumably, attend those meetings. I think the active members here present would deceive themselves if they felt that under such a provision the state would really be getting any representation at all. That is the difficulty with the present situation. All of us, I suppose, would desire a real representation of the members by states in the selection of this nominating committee. The present arrangement gives no such real representation by states, and I conceive that Mr. Bouton's amendment will not give that desirable thing. The advantage of the amendment proposed by President Butler is that the nominations will be made by a responsible person, responsible to the Association. He is a person who is in office but a year, and he cannot have any motive for preferring one man to another in the representation on this nominating committee. He is a temporary official himself, immediately replaced after this act. The existing method and the method proposed in the amendment will inevitably result in the delegation of this appointing power to small irresponsible bodies, which I think our political experience has taught us is not a desirable method of nomination. What more

desirable method than the present can be arrived at I am not prepared to advise, but I have felt it my duty to say that it has seemed to me, from my experience this week, that the former method of nomination was certainly better than the present method. That is as far as my official experience enables me to go.

MISS HALEY: I should like to ask two questions, if I may. Under the plan presented by Dr. Butler, the President of the National Educational Association appoints the nominating committee, and the nominating committee in turn appoints the President, and then the President appoints the next nominating committee, and that nominating committee appoints the President. May I ask the chair if I am right?

THE PRESIDENT: The answer to Miss Haley's question seems to me to be this: One President appoints a committee to nominate all the officers for the ensuing year, and that committee nominates another President—a totally different person; but the election is by the general meeting of active members, and not by any committee whatever. It is important to notice, as a qualification of Miss Haley's argument, that the President of the year cannot be a nominee for re-election.

MISS HALEY: You have answered one question to the effect that we should have under Dr. Butler's amendment a self-perpetuating machine. The question that I desire next to ask is this: Does not the amendment presented by Mr. Bouton, the one which I accepted in place of my motion, remove the objection, which the President makes, that he was obliged to appoint, or did appoint, the members of the nominating committee, since none of the appointments made by the different states conformed to the provisions of the by-law? Is not that objection removed by providing that any number of active members present at the meeting shall constitute a quorum competent to do business?

THE PRESIDENT: The answer to Miss Haley's question is that Mr. Bouton's amendment will provide a legal mode of operation. Our present method cannot be legally operated. At this point a general discussion ensued as to the effect of the amendment offered by Mr. Bouton to the resolution of Mr. Butler amending the by-laws.

A motion by A. S. Downing, of New York, to lay the question on the table for one year was defeated.

President Eliot explained, in answer to a question, that the adoption of Mr. Bouton's amendment and the subsequent adoption of Mr. Butler's motion by a two-thirds vote would amend the by-law to read, after the word "President" in the fourth line, as follows: "On the nomination of a majority of the active members from such state and territory present at the meeting called for the purpose of making such nomination;" and would eliminate the provision of the by-law requiring for a quorum the presence of a majority, not less than three, of the active members in attendance (on the convention) from each state or territory.

The amendment of Mr. Bouton was then passed.

A vote on the resolution of Mr. Butler, as amended, was then taken, resulting in: ayes, 123; noes, 43. The resolution as amended was declared adopted by a two-thirds vote.

In answer to a question as to the future relations of the President of the Association to the nominating committee, President Eliot stated that, as he understood the action just taken, the President under the new by-law will simply record the nominations made by the state meetings, and will then proceed to fill vacancies where state meetings have failed to make nominations.

The Secretary announced the receipt of a communication and resolutions from Miss Margaret A. Haley, president of the National Federation of Teachers, as follows:

**RESOLUTIONS ADOPTED AT MASS MEETING OF TEACHERS HELD AT CHICKERING HALL, BOSTON, JULY 7, 1903, UNDER AUSPICES OF NATIONAL FEDERATION OF TEACHERS**

WHEREAS, Demands are continually made on teachers for a higher scholastic and professional attainment; cost of living is steadily increasing, with stationary or decreasing salaries, insecure tenure of office, no provision for old age, and conditions generally under which teachers work such that further progress in education demands immediate betterment of these conditions; therefore

*Resolved*, That it is the sense of this mass meeting of teachers held under the auspices of the National Federation of Teachers that the time has come to bring the facts as to these conditions to public attention, and to this end that the subjects of Teachers' Salaries, Tenure of Office, and Pensions should be placed on the general program of the National Educational Association next year; and

*Resolved*, That a copy of these resolutions be sent to the Secretary of the National Educational Association with the request that they be brought to the attention of the body at its meeting July 9.

(Signed) MARGARET A. HALEY.

The communication and accompanying resolutions were referred to the Committee on Resolutions.

The meeting then adjourned.

### REPORT OF THE COMMITTEE ON RESOLUTIONS

The members of the National Educational Association, assembled in their forty-second convention, make the following

#### DECLARATION

1. The United States Bureau of Education has amply proved its usefulness to the nation. Its publications are standard works of reference for school officers and teachers everywhere. The Bureau of Education should be made an independent administrative department, such as were the Departments of Agriculture and of Labor before their elevation to cabinet rank. Sufficient appropriations should be made by the Congress to enable the Commissioner of Education to extend the scope and add to the usefulness of his work.

Young, South Dakota; J. W. Spindler, Kansas; W. J. Kerr, Utah; F. B. Cooper, Washington; E. D. Ressler, Oregon

Present, thirty-eight directors.

On motion, the reading of the minutes of the last meeting, held at Minneapolis, Minn., July 10, 1902, was dispensed with, and the minutes were approved as printed in the volume of *Proceedings* of the Minneapolis meeting.

The Secretary read communications from several absent directors tendering their resignations and nominating successors to be appointed by the board, as follows:

Warren Easton, of Louisiana, nominating Nicholas L. A. Bauer.  
F. Yale Adams, of Arizona, nominating A. J. Matthews.  
H. S. Philips, of Colorado, nominating Lewis C. Greenlee.  
James A. Foshay, of California, nominating Thomas H. Kirk.  
David R. Boyd, of Oklahoma, nominating A. R. Hickam.  
John J. McMahan, of North Carolina, nominating P. T. Brodie.

Director N. C. Dougherty, of Illinois, moved that the Secretary be instructed to cast the ballot of the members present for the election of the nominees named to fill the vacancies occasioned by the several resignations which had been read.

After discussion concerning the authority of the board to fill temporarily a vacancy occasioned by the absence of a director, the chairman, President Charles W. Eliot, ruled that, while the board had authority under the provisions of the constitution to fill a vacancy, it had no authority to appoint a temporary representative of an absent director whose resignation had not been received.

The motion of Director Dougherty was then carried.

The Secretary reported that the ballot had been cast as ordered. The nominees named in the several letters of resignation were then declared duly elected to fill the respective vacancies.

On motion, the Executive Committee was authorized to appoint temporary representatives of absent directors to receive and distribute to members from the respective states the invitations to receptions and tickets of admission to various entertainments which the Local Executive Committee had arranged to distribute thru the state directors.

The report of the Treasurer, W. M. Davidson, of Topeka, Kan., for the year ending June 30, 1903, was then read.

The report was accepted and adopted by a unanimous vote.

The seventeenth annual report of the Board of Trustees was presented by the chairman, A. G. Lane, of Chicago, Ill., and, on motion, was accepted and adopted by a unanimous vote.

PRESIDENT ELIOT: As President of this Association I have had an opportunity to examine into the state of the property and the receipts and expenditures of this institution, and am glad to be able to assure the directors that the National Educational Association has on hand a substantial endowment of more than \$100,000, the income of which meets its permanent expenses. Moreover, this is increasing, as you have heard. It increased \$10,000 last year, and I am quite sure it will increase still more this year. Appreciating their responsibilities, the Board of Trustees have today decided upon an exceedingly conservative policy in the management of this property.

Director Charles H. Keyes, of Connecticut, member of the Committee of Eleven on Formulation of Contemporary Educational Doctrine, called attention to the action of the Department of Superintendence of the National Educational Association, at the recent Cincinnati meeting, requesting that an appropriation not exceeding \$2,500 be made to said committee for expenses in pursuance of its work. Director Keyes urged the propriety of this appropriation, and reported the fact that the committee had already accomplished some work in the line of its duties.

On motion, the application was referred to the National Council for investigation and recommendation.

Director L. D. Harvey, of Wisconsin, offered the following resolution:

*Resolved*, That the National Council of Education be requested by the Board of Directors of the National Educational Association to appoint a committee to report to that body, after such investigation as may seem desirable, conclusions as to what should be undertaken in the field of industrial education in schools in rural communities, and to recommend such an appropriation as may be necessary for carrying on the investigation and preparation of the report.

DIRECTOR HARVEY, in support of his resolution, said: The reason for offering this resolution at this time is that all thru the middle West, in the South, and even in some of the New England states, the question of what can be done, especially in the field of elementary agricultural instruction in rural schools, is a live one. In a number of states laws have been enacted requiring teachers to pass examinations on that subject in order to teach. In other states laws have been passed making it mandatory that instruction in elementary agriculture be given in the rural schools.

There is a very widespread feeling that something should be done, but the difficulty is that nobody knows today what ought to be done, or what can be done. In Canada in 1872 they undertook by law to put the teaching of agriculture into the public schools, without a definite idea of what should be done. The result was a failure, and the movement dropped out of sight three or four years ago. They are now taking it up again. We are, however, undertaking certain lines of work from which we expect good results. A number of states—New York, Wisconsin, and others—are carrying on successful work in this field today. It seems to me there is no subject that is more important for our country schools than this. We are in danger of making a serious mistake in attempting this work without something definite being suggested as to what we shall do. It seems to me there is no more important work for the National Council than to appoint a committee of investigation on this subject and to recommend such an appropriation as may be necessary to carry on the work.

Director W. T. Carrington seconded Director Harvey's motion, which was unanimously carried.

The Secretary then read the following communication:

*To the Board of Directors, National Educational Association:*

GENTLEMEN:—In view of the increased interest shown thruout the country in the matter of the condition of the teachers, as to salary, tenure of position, pensions, and cost of living;

In view of the remarkable increase in cost of the necessities of life;

In view of the rise of wages and salaries of workers of all other kinds above and beyond the increase in the salaries of teachers;

In view of the impossibility of maintaining the highest grade of instruction in the United States under present conditions of low salaries in the country;

You are respectfully urged to make the investigation of the condition of teachers thruout the United States a special order for the coming year. You are earnestly requested to appoint a committee for investigation and report. You are earnestly requested to appropriate from two to three thousand dollars for the expenses of correspondence, canvassing, tabulating, and printing. The New York delegation of members of the National Educational Association, having enjoyed a great improvement in the matter of salaries, etc., feels especially concerned for their brother and sister teachers of America, whose average yearly salary is shown by the last report of the Commissioner of Education to be less than \$350 per year. We feel that we should do all in our power to contribute toward the improvement of the condition of the teachers thruout the country.

Respectfully,

NEW YORK MEMBERS OF THE NATIONAL EDUCATIONAL ASSOCIATION,

By

CHARLES R. SKINNER,  
C. T. McFARLANE,  
HARRY F. TOWLE,  
WM. McANDREW,  
KATHERINE BLAKE,  
W. B. GUNNISON.

On motion, the communication was referred to the Committee on Investigation and Appropriations of the National Council for recommendation.

The Secretary made an explanation of the conflicting announcements in the Advance Program-Bulletin and the Official Program regarding the time for the meeting of active members to select members of the Committee on Nominations. The change of the opening of the convention from Tuesday afternoon to Monday evening had rendered inoperative the by-law which provides for the meetings to occur at 5:30 P. M. of the first day of the convention, since, if strictly followed, the meetings would occur before the opening of the convention, before the various state headquarters would be open for use, and before the arrival of many of the members. It had therefore seemed advisable for all interests to announce these meetings for 9 o'clock A. M. Tuesday morning; but, objection having been raised to this technical violation of the provisions of the by-law, the announcement was changed in the Official Program to the effect that the meetings be held at 5:30 P. M., Monday afternoon, and it was recommended in the announcement that the meetings adjourn, without action, to the more favorable time suggested in the Program-Bulletin, namely, 9 o'clock A. M., Tuesday, July 7.

Director Nicholas Murray Butler, of New York, gave notice that, in view of the impracticable provisions of by-law No. 1, he should, at the proper time at the regular annual meeting of active members, move an amendment to the by-law in question.

After announcements by the Secretary, the meeting adjourned.

IRWIN SHEPARD, *Secretary*.

# MEETING OF THE NEW BOARD OF DIRECTORS FOR 1903-1904

---

BOSTON, MASS., JULY 9, 1903

The Board of Directors of the National Educational Association met in Trinity Chapel, Boston, at 4:30 P. M., President-elect John W. Cook, of Illinois, in the chair.

The following directors responded to roll-call:

President John W. Cook, Illinois; McHenry Rhoads, Kentucky; Charles W. Eliot, Massachusetts; Nicholas Murray Butler, New York; James H. Canfield, New York; Newton C. Dougherty, Illinois; Aaron Gove, Colorado; J. M. Greenwood, Missouri; Albert G. Lane, Illinois; Eliphalet Oram Lyte, Pennsylvania; F. Louis Soldan, Missouri; A. J. Matthews, Arizona; Charles H. Keyes, Connecticut; Miss Catherine Goggin, Illinois; T. A. Mott, Indiana; A. V. Storm, Iowa; E. H. Mark, Kentucky; J. S. Locke, Maine; M. Bates Stephens, Maryland; Louis P. Nash, Massachusetts; D. W. Springer, Michigan; W. F. Kunze, Minnesota; Ben Blewett, Missouri; Edwin J. Bodwell, Nebraska; A. S. Downing, New York; E. D. Ressler, Oregon; J. W. Lansinger, Pennsylvania; W. B. Jacobs, Rhode Island; Walter E. Ranger, Vermont; Miss Lucy Robinson, West Virginia; L. D. Harvey, Wisconsin; Miss Estelle Reel, Wyoming.

Number of directors present, thirty-two.

The reading of the minutes of the meeting of the former Board of Directors was, on motion, omitted.

Director A. G. Lane, of Illinois, called attention to the fact that no director had been elected for the state of Florida; that the member of the Committee on Nominations for that state, Dr. John F. Forbes, did not learn of his appointment until after the meeting of that body had adjourned; and that he now wished to address the board on the question of filling the vacancy.

No objection being made, Dr. Forbes was introduced by President Cook, and made a brief explanation of the conditions in Florida which led to the two contesting delegations from that state in the appointment of a member of the Committee on Nominations. He recommended that B. C. Graham, county superintendent of schools for Hillsborough county, be appointed director.

On motion, the recommendation of Dr. Forbes was accepted, and B. C. Graham was unanimously appointed director for Florida.

Director E. H. Mark, of Kentucky, stated that it had been his own wish and the wish of the entire delegation from that state that S. L. Frogge, of Frankfort, Ky., should be elected director; but, thru a misunderstanding, his own name had been entered for that office in the report of the Committee on Nominations, and he had been duly elected. He therefore tendered his resignation as director, with the request that S. L. Frogge be appointed to the vacancy.

On motion of Director Dougherty, of Illinois, the resignation of Director Mark was accepted, and S. L. Frogge was unanimously appointed director for Kentucky.

On motion, the chairman was authorized to appoint a committee of three to nominate members of the National Council.

Directors E. Oram Lyte, Newton C. Dougherty, and A. G. Lane were appointed such committee.

The next order of business being the election of a member of the Board of Trustees to fill the vacancy occasioned by the expiration of the term of service of A. G. Lane, Director James M. Green, of New Jersey, moved that Director A. G. Lane be elected trustee to succeed himself. The motion was unanimously carried.

On motion of Director Aaron Gove, of Colorado, Director Wm. T. Harris, United States Commissioner of Education, was elected to succeed himself as member of the Executive Committee.

A communication was received from the National Council transmitting the following reports to that body by its Committee on Investigations and Appropriations on certain applications to the Council for recommendation of appropriations by the Board of Directors. These reports were accompanied by resolutions embodying the action of the Council on the reports.

#### REPORT OF THE COMMITTEE ON INVESTIGATIONS AND APPROPRIATIONS

##### *To the Council:*

The Committee on Investigations and Appropriations begs leave to report as follows relative to the several matters which have been before it either by reference from the Council or from the Board of Directors, or upon the initiative of the committee itself:

1. Action on the proposal of President Baker, of Colorado, to appoint a committee, and to ask for an appropriation to inquire into the contemporary judgment as to the culture element in education and the time that should be devoted to the combined school and college course, should await a clear definition of the topic to be studied and a precise indication of the methods of inquiry to be pursued. We recommend that the president of the Council be authorized to appoint a committee of five active members of the Association to undertake to define the question as presented by President Baker, the report of this committee to be printed and distributed in advance of the next annual meeting of the Council, and its discussion made a special order for that meeting.

2. In reference to the request of a number of active members of the Association, made to the Board of Directors and referred by that board to this committee, that an investigation be undertaken to determine the economic condition of public-school teachers throughout the United States, your committee feels that the time is ripe for the prosecution of such an inquiry. There is a great and growing interest throughout the country in matters relating to the condition of public-school teachers and their compensation, and there is every reason to believe that, if the facts could be correctly ascertained and lucidly set forth, the effect upon public opinion, and consequently upon the status of the teachers themselves, would be excellent. We, therefore, recommend that the president of the Council be authorized to appoint a committee of seven, to consist of active members of the Association, and of not more than two experts in statistical and economic science, who may or may not be members of the Association, to inquire and report to the Council upon the salaries, tenure of office, and pension provisions for public-school teachers in the United States. We recommend that an appropriation of \$1,500, or so much thereof as may be necessary, be asked from the Board of Directors to defray the necessary expenses of conducting the work of this committee.

3. The committee is unable to recommend any appropriation to defray the cost of the work being carried on by the so-called Committee on Formulation of Contemporary Educational Doctrine. The attention of the Council is called to the fact that, by resolution of the Board of Directors, and by terms of the constitution of the Council, Art. IV, all investigations made in the name of the National Educational Association shall originate in the Council, or, if not, shall be made under its direction or authority. To the best of our knowledge and belief, no request has ever been made that the Council should authorize or approve the work of a Committee on the Formulation of Contemporary Educational Doctrine.

4. With reference to the request of the Board of Directors that this committee report upon the expediency of undertaking an investigation in the field of industrial education in schools in rural communities, we report that such an investigation seems to be urgently needed in view of the requests for information and advice that are reaching the school authorities in several states of the middle West. We recommend that the president of the Council be authorized to appoint a committee of five, consisting of active members of this Association, and of not more than one expert in agricultural education, who may or may not be a member of this Association, to undertake such an investigation and to report to the Council. We recommend that the Board of Directors be requested to appropriate \$500, or so much thereof as may be necessary, to defray the cost of the investigation to be conducted by such committee.

5. Several times during the past few years the National Educational Association has explicitly declared in favor of strengthening the Bureau of Education, and of increasing its dignity and importance in the scheme of governmental administration at Washington. At a meeting of the Department of Superintendence held at Chicago February 28, 1900, upon motion of the Commissioner of Education, a committee of six members was appointed for the purpose of aiding the Bureau of Education to accomplish its work. This committee has from time to time had under consideration the needs and opportunities of the bureau. It has recently held a series of prolonged sessions for the purpose of giving careful consideration to the whole matter, and, in conjunction with the Commissioner of Education himself, has arrived at the conclusion that the time has now come when a determined effort should be made to secure from the administration and from Congress such action as will put into practical effect the oft-repeated recommendations of this Association relative to the Bureau of Education. It is the judgment of the committee referred to that the Bureau of Education should be speedily restored to the status which it had at the time of its formation, namely, that of an independent department—a status

which the Departments of Agriculture and of Labor had before they were raised to cabinet rank. Inasmuch as education in the United States is not a matter committed to the general government, the Bureau of Education can never become a strictly administrative office save in certain limited respects. The bureau should, however, have the dignity of a separate organization, and there is reason to believe that it would fare better if it enjoyed such status rather than continued in its present rank as a bureau of the Department of the Interior. The salary of the Commissioner of Education should be raised to at least \$5,000, preferably to \$6,000. He should be given two assistants, at salaries of \$3,000 or \$3,500 each, and the annual appropriation now made to the bureau should be increased by not less than \$50,000, primarily to enable the commissioner to bring together and to make public a still greater and more practical amount of information than he now collects and brings to the attention of school officers and school-teachers in every state and territory. One assistant commissioner might well have charge of the division of statistics and reports—the work which has been so effectively carried on under Dr. Harris' personal direction for fourteen years. The second assistant commissioner should have charge of the administrative division of the Department of Education, whose duty it should be to deal more directly and more strongly than now with education in those parts of our domain that are not organized into states and territories, and where in consequence the matter of public education is either neglected or is under a local control which is not in touch with the experience and the resources of the educational system of the nation as a whole.

It is our belief that the National Council should take vigorous action in the matter of the status of the Bureau of Education, and that it should either assume as its own the committee appointed by the Department of Superintendence in 1900, as mentioned above, or should name a committee in succession to that one, whose duty it shall be to undertake an active propaganda before Congress and the country in favor of the upbuilding of the Bureau of Education into a department, as outlined above. We, therefore, recommend that the president of the Council be authorized to appoint such a committee, to consist of seven active members of the Association, and that the sum of \$1,000, or so much thereof as may be necessary, be asked from the Board of Directors to pay the necessary expenses of the work.

Appropriate resolutions to carry these recommendations into effect are attached to this report.

Respectfully submitted for the committee,

(Signed) J. M. GREENWOOD, *Chairman*.

BOSTON, MASS., July 8, 1903.

#### RESOLUTIONS

1. *Resolved*, That the report of the Committee on Investigations and Appropriations, made under date of July 8, 1903, be accepted and its recommendations adopted.

2. That the Board of Directors of the National Educational Association be requested to make the following appropriations:

One thousand five hundred dollars, or so much thereof as may be necessary, for a committee of seven to inquire and report to the Council upon the salaries, tenure of office, and pension provisions of public-school teachers of the United States.

Five hundred dollars, or so much thereof as may be necessary, for a committee of five to investigate and report to the Council upon the subject of industrial education in schools in rural communities.

One thousand dollars, or so much thereof as may be necessary, for a committee of seven to urge upon Congress and the country the erection of the Bureau of Education into a separate administrative department and its adequate equipment and financial support.

The above report and resolutions were adopted by unanimous vote.

*Secretary, National Council.*

#### SUPPLEMENTARY REPORT OF THE COMMITTEE ON INVESTIGATIONS AND APPROPRIATIONS

*To the Council:*

The Committee on Investigations and Appropriations begs leave to report as follows relative to the application made to it, upon reference from the Board of Directors by a committee of nine appointed by the Department of Superintendence on February 27, 1902. This committee was appointed "to formulate, on a sound educational basis, contemporary educational doctrines, submit statements covering contemporary educational experience, and indicate the tendencies of contemporary educational methods."

The committee has asked for an appropriation of \$2,500 with which to meet the expenses of its work.

After a full hearing of representatives of the committee, your committee begs leave to report that in its judgment the Council should request the committee to designate a subcommittee of three of their own number, which subcommittee shall report to the Council at its next annual meeting—

1. A detailed and specific statement of the field of proposed investigation.
2. A precise indication of the method or methods to be pursued.
3. A careful estimate of the cost of the proposed investigation and the amount of time it will probably consume.

On motion of Director Aaron Gove, of Colorado, Director Wm. T. Harris, United States Commissioner of Education, was elected to succeed himself as member of the Executive Committee.

A communication was received from the National Council transmitting the following reports to that body by its Committee on Investigations and Appropriations on certain applications to the Council for recommendation of appropriations by the Board of Directors. These reports were accompanied by resolutions embodying the action of the Council on the reports.

#### SUPPLEMENTARY REPORT OF THE COMMITTEE ON INVESTIGATIONS AND APPROPRIATIONS

*To the Council:*

The Committee on Investigations and Appropriations begs leave to report as follows relative to the application made to it, upon reference from the Board of Directors by a committee of nine appointed by the Department of Superintendence on February 27, 1902. This committee was appointed "to formulate, on a sound educational basis, contemporary educational doctrines, submit statements covering contemporary educational experience, and indicate the tendencies of contemporary educational methods."

The committee has asked for an appropriation of \$2,500 with which to meet the expenses of its work.

After a full hearing of representatives of the committee, your committee begs leave to report that in its judgment the Council should request the committee to designate a subcommittee of three of their own number, which subcommittee shall report to the Council at its next annual meeting—

1. A detailed and specific statement of the field of proposed investigation.
2. A precise indication of the method or methods to be pursued.
3. A careful estimate of the cost of the proposed investigation and the amount of time it will probably consume.

It is further recommended that an appropriation of \$750 be placed at the disposal of the chairman of the Committee of Nine for the purpose of defraying the expenses of the subcommittee of three, as well as of meeting the cost of the work hitherto prosecuted by the full committee.

An appropriate resolution is attached to this report.

Respectfully submitted,

(Signed) J. M. GREENWOOD,

*Chairman of the Committee.*

BOSTON, MASS., July 8, 1903.

*Resolved*, That the Board of Directors be requested to appropriate the sum of \$750, or so much thereof as may be necessary, in order to defray the expenses of the work of the subcommittee of three on a proposed investigation of the facts of contemporary educational experience, and the expenses already incurred by the Committee of Nine appointed by the Department of Superintendence on February 27, 1902.

The above report and resolution were adopted by the National Council July 9, 1903, and, under the direction of that body, are hereby referred to the Board of Directors for its approval.

(Signed) J. F. MILLSPAUGH,

*Secretary, National Council.*

On motion of Director Nicholas Murray Butler, of New York, seconded by Director Aaron Gove, of Colorado, the report and recommendations of the Council were accepted and approved, and the amounts named appropriated, respectively, for the expenses of the several committees.

The Secretary read a communication from Miss Laura E. Aldrich, delegate to the National Educational Association from the National Association of Elocutionists, asking for information as to the steps to be taken to become affiliated with the National Educational Association.

On motion of Director Charles H. Keyes, of Connecticut, the communication was received and referred to the Executive Committee.

Director Charles W. Eliot called attention to an action, taken by the Executive Committee at his request, for which perhaps there may not have been authority, as follows: "Last January 1 a meeting of the presidents of departments was held in Boston at my instance, in order that we might consult together concerning the preparation of the programs for the convention which is now in progress. That meeting, according to my observation, and also according to the testimony of the presidents of departments, was a useful one. The members of this board have had some opportunity of judging whether the programs on which we have been conducting our meetings have been good. The presidents of departments, I think, attributed some of the merits of the programs to the opportunity they had for consultation. In the interests of my successor, I believe it would be well to continue to hold a meeting of the presidents of departments about the 1st of January, and I venture to suggest that the Board of Directors authorize the Executive Committee to incur the necessary expenses of such a meeting."

On motion of Director Gove, the Executive Committee was authorized to incur the necessary expenses of a meeting of department presidents in accordance with the suggestion of Director Eliot.

Director Charles H. Keyes, of Connecticut, moved that \$800 be appropriated for the expenses of the meeting of the Department of Superintendence which is to meet in Atlanta, Ga., in February next.

Some objections being raised to the appropriation of so large an amount, the motion was amended by Director A. S. Downing, of New York, to appropriate \$400. The amendment was accepted by Director Keyes, and the amended motion passed by a unanimous vote.

Director E. Oram Lyte, chairman of the Committee on Nominating Members of the Council, reported as follows:

*To the Board of Directors:*

Your committee finds the following vacancies in the Council to be filled at this time, viz.:

Wm. T. Harris, by reason of expiration of term.

C. B. Gilbert, by reason of expiration of term.

George J. Ramsey, by reason of expiration of term.  
Charles R. Skinner, by reason of expiration of term.  
Emerson E. White, deceased.  
R. B. Fulton, by reason of absence for two years.

The following nominations are submitted for your approval:

Wm. T. Harris, to succeed himself, term to expire in 1909.  
William R. Harper, to succeed himself, term to expire in 1909.

On motion, the report of the committee was received and adopted, and the nominees were declared elected members of the Council for their respective terms.

The President announced the next order of business to be the consideration of invitations for the next place of meeting, and instructed the Secretary to call the roll of states.

When California was reached, the Secretary reported that he had received from President Benjamin Ide Wheeler and the authorities of the city of San Francisco an invitation to hold the convention for 1904 in that city.

At the call of Missouri, the Secretary reported that he had received a communication from Howard J. Rogers, of the department of education of the Louisiana Purchase Exposition, transmitting letters from the president of the exposition, the mayor of St. Louis, and the Business Men's League of St. Louis inviting the Association to hold its next convention in that city in 1904.

The roll-call of states was continued to the state of Washington. Director F. B. Cooper, of Washington, in behalf of the north Pacific coast, renewed the invitation presented at Detroit in 1901, and again in 1902 at Minneapolis, to meet in that section at such point as should be chosen by the Executive Committee. He also extended formal invitations from the chamber of commerce and the citizens of Seattle to meet in that city in 1904.

The roll-call of states was completed without other invitations being presented.

Director Ben Blewett, of Missouri, stated that he held in his possession an outline of certain facts, bearing on railroad concessions and other matters that would affect the pecuniary interests of the Association, should the next meeting be held in St. Louis, and that he would be pleased to present the same if the board desired to consider it at this time.

Director F. Louis Soldan, of Missouri, suggested that the statement referred to by Director Blewett be presented.

Director Springer, of Michigan, moved that, in accordance with the custom for some years past, all the invitations be referred to the Executive Committee, with full power to select the next place of meeting and make all arrangements for the same. The motion was seconded.

DIRECTOR SOLDAN: While I do not wish to oppose this motion, may I direct the attention of the board to the fact that this is perhaps an extraordinary occasion; that it may not be desired by the Executive Committee to have to settle this matter without some suggestions or advice from this body? I agree fully that its hands should be left untrammelled by any instructions; but should there not be some indication as to the pleasure of this body concerning the question of location?

Director Aaron Gove, of Colorado, stated that, since the selection of the place of meeting must ultimately rest with the Executive Committee, statements and arguments presented here will have little weight in determining the result. The Executive Committee have some months before it for the consideration and determination of this question

Director J. M. Greenwood, of Missouri, moved, as a substitute for the motion of Director Springer, that the board proceed to take an informal vote on the question of the next place of meeting; seconded.

A general discussion followed on the advisability of receiving at this time presentation of the facts referred to by Director Blewett relating to the invitations that had been presented from the city of St. Louis.

Objections being withdrawn, Director Blewett was recognized by the chair and said in part: "I wish to speak only of the financial questions involved in the invitations transmitted by Mr. Rogers. St. Louis will guarantee two thousand advance members. The exposition, in spite of the fact that it has placed the congresses of education in September and October, guarantees its best effort to make the gathering of teachers in July, if held in St. Louis, not only a national, but an international, affair. It guarantees to take care of any number, no matter if it be thirty thousand, that you may bring to St. Louis. I am authoritatively informed that it is the intention of the railroads to offer a half rate to St. Louis and return from the beginning of the exposition, if not on all trains, at least on certain trains, and that it will be impossible to add the \$2 membership coupon to these tickets, as has been done in the past. I understand that it has been a matter of anxiety to the directorate as to what effect it will have on the relations of the Association with the transportation companies in the future. I hold in my hand a copy of a letter to Mr. C. S. Crane, general passenger agent of the Wabash road, conveying assurances that waiver of the collection of the membership fee for one year will not unfavorably affect the Association in its future relations with the railroads. I simply wish to assure this body that as a monetary consideration the Association need not fear coming to St. Louis, and she should not fear investing money in the educational advantages of a meeting in St. Louis, even if a financial loss followed.

Director Soldan said in part: "I wish to speak only of the one vital point. Is it not advisable for the National Educational Association to take cognizance of the fact that the largest educational exhibit that we have ever seen will be collected, arranged, and placed before the world at the St. Louis exposition in 1904? Is it expedient for this Association, representing the teachers of America, whose vital interests will center in that exposition, to appoint a meeting at the extreme end of the country, and seek to keep as far away as possible from the place of chief common interest? If such is the decision, let it go on record that for the first time in the history of any national exhibit the body of teachers chiefly interested in that exhibit takes its meeting as far away from it as it can go. Now, I shall not dwell on any other point. I shall not speak of the attractions or the asperities of the month of July in St. Louis. Shall it be the rule of the Association to draw a geographical line and say: 'Below that line we shall not take the Association in the future, because it is too warm?' Is the Association becoming a geographic body that transacts its business in a limited space, or shall we keep open the chance that all parts of the country may have the advantages of this Association, as has been the custom in the past? I plead that the reasons advanced for taking the Association away from the great exposition are not sound. I say that the Association should go to that place where there is to be the largest exposition and the largest educational exhibit ever organized."

After a brief general discussion, in which objections were again urged against the advisability of taking a ballot on the question of the next place of meeting, Director Greenwood withdrew his substitute motion, and the motion of Director Springer to refer the question to the Executive Committee, with full powers, was passed by a unanimous vote.

After an informal discussion of a proposition by Director A. V. Storm, of Iowa, that the board should make appropriations for the expenses of state headquarters, on which no action was taken, the board adjourned.

# REPORT OF THE PRESIDENT

## OF

### THE NATIONAL EDUCATIONAL ASSOCIATION

---

#### *To the Executive Committee:*

The meeting of the Association in Boston, July 6-10, 1903, had certain unusual features which may appropriately be put on record in the files of the Executive Committee.

The President elected for the year lived at the appointed place of meeting, and was therefore able to take part in the local preparations for the convention. There are unquestionable advantages in this exceptional arrangement, if it comes about naturally and without serious drawbacks. The Executive Committee met in Boston, October, 1902, and authorized a reduction in the number of general sessions, the reservation of all the mornings for department meetings, the appropriation of all the afternoons to excursions and hospitalities; the omission of devotional exercises and music from all sessions, general or departmental, except the first general session, and the shortening of the addresses of welcome and of the replies thereto. They also expressed the wish that the local committees might succeed in preventing certain annoyances common at large gatherings of teachers, such as commercial exhibits, importunate advertising, and the demanding of fees by guides and messengers.

The committee also authorized the President to call a meeting of the departmental presidents at Boston. This meeting was held on January 1, 1903, and was thought by all who participated in it to be a very useful innovation. It was there agreed that each session, general or departmental, should be devoted to a single topic, that the limit of a principal paper should be twenty minutes, and of a contribution to a discussion from seven to ten minutes, and that copies of all papers should be sent weeks beforehand to the department president to whose program they severally belong. These rules were carried into effect in good measure, and in the end it clearly appeared that those meetings were the most interesting and successful in which they were best enforced.

Two local committees were next organized—an Advisory Committee and an Executive Committee. The Advisory Committee consisted of the chief educational authorities of the neighborhood, and the heads of local teachers' associations, learned societies, and two park commissions. The chairman of the Local Executive Committee, Mr. Edward R. Warren, was selected by the President of the National Educational Association, and the chairman selected his four associates. The members of this committee received moderate compensation for a portion of the time they gave to the work. The Local Executive Committee organized and enlisted nine subcommittees as follows: on advance membership, press, excursions, hospitality, accommodations, reception, school exhibits, music, and halls. The numerous members of these subcommittees were all volunteers, working with zeal to promote the objects of the National Educational Association, and the pleasure and satisfaction of the teachers who were to visit Boston. All the subcommittees laid their plans and began work several months beforehand. After the Local Executive Committee had learned the views and expectations of the several subcommittees, and had made a rough estimate of the probable expenses of the convention on the assumption that 25,000 persons would attend it, a Finance Committee was organized which undertook to raise \$25,000 to defray the local costs. This committee obtained \$25,155 from transportation companies, hotels, business firms, and other public-spirited

contributors. The treasurer's statement is annexed to this report. The expenditure of this money, and particularly the allotment of money to the several subcommittees, was carefully supervised by the Local Executive Committee. The two concerts given to the Association, and the various hospitalities in and about Copley Square, were the most expensive provisions made, as appears in the treasurer's statement, but they were also the things most enjoyed during convention week by the visiting members of the Association. The Advance Membership Committee did an unprecedented piece of work in enrolling 6,883 new members from New England. The Accommodations Committee succeeded in meeting promptly all demands for lodgings, in spite of the fact that the attendance at the convention exceeded by many thousands the estimated 25,000. The teachers of Boston and the vicinity in large numbers served on the committees and gave an indispensable co-operation in many other ways. Hundreds of selected pupils from the public schools served as guides and messengers during the convention week. The wishes of the National Executive Committee in regard to advertising and fees were carried out with a good degree of success. The use of the buildings and grounds of the Massachusetts Institute of Technology and of the churches, in which department meetings were held, was freely given to the Association. The excursions to places of historical or literary interest in and about Boston were eagerly availed of by thousands of the visiting teachers during the week July 6-11; and the daily resort to the places described by the Excursions Committee was more considerable than usual for several weeks afterwards.

From the experience of the President of the Association and of the department presidents at the Boston meeting it may certainly be inferred that the preparation of the programs for a meeting in July should be begun in earnest not later than January 1; that every paper should be in the hands of the president concerned not later than May 15; and that every writer should be urged to deal with actual experience, difficulties encountered, and results achieved, rather than with theories or generalities. Free discussion after the reading of the papers in a department meeting is sometimes interesting, but oftener rambling and disjointed. It should be limited as to time, and otherwise controlled and directed by the presiding officer. Interest in the meetings can best be assured by procuring the active participation on the program of teachers who have a wide reputation, or who have obtained in their own fields unusual results. A few papers on educational theory are desirable; but these should make but a small part of the total program of a convention. The general opinion at the Boston meeting seemed to be that three twenty-minute papers and six seven-to-ten-minute papers were enough for a department session. Under the conditions which existed at Boston, and probably would exist in any large city, it was apparent that the general sessions held in the evening had a less cogent attraction for the average member of the Association than the department meetings in the morning. This fact should be taken into account in preparing the program of the general sessions for any place of meeting where the outside attractions during the day and evening are strong.

The weakest point in the present administration of the Association is the mode of selecting members of the Committee on Nominations. The conditions prescribed for their election by the by-law in force up to July 9, 1903, could not be fulfilled, so that all elections had been illegal. The meeting of Active Members on July 9 amended the by-law so that legal elections can be effected, but at the moment the meeting could not see the way to prevent the election of members of the nominating committee by very small meetings which can easily be managed in the interest of aspiring individuals. The National Executive Committee might render an important service to the Association if it would prepare and submit to the Active membership before the next meeting a satisfactory method of electing members of the Committee on Nominations.

The following table shows the growth of the permanent fund and the interest receipts as appear from the reports of the Board of Trustees since its organization in 1886. The surplus from the meetings of 1884 and 1885 and from other sources, amounting to \$3,400, was turned over to the Board of Trustees as the first installment of the permanent fund.

Already from the receipts of the Boston convention \$24,000 has been transferred to the permanent fund, bringing the amount up to \$132,000 at this date, November 15, 1903. This will be further increased during the year.

From the above tables it will be seen that during the past two years there has been a fixed revenue from the receipts of the Secretary's office and from interest on the permanent fund, amounting to \$9,627.15 and \$10,120.06 respectively. This revenue is entirely independent of receipts from the annual convention.

## CONFERENCE OF DEPARTMENT PRESIDENTS

The recommendation in the last report that the President of the Association be authorized to call a meeting of the department presidents about January 1 for the purpose of considering and determining the various programs for the annual convention was,

on the recommendation of President Charles W. Eliot, adopted by the Executive Committee at its meeting in Boston October 9, 1902. The department presidents were called to meet in Boston January 1, 1903; fifteen were present besides President Eliot and the Secretary. A series of interesting and profitable sessions were held; every phase of each proposed program for the Boston convention was discussed in detail, and valuable suggestions and criticisms were freely offered. It is believed that the excellent programs and the unusually successful department meetings at the Boston convention were largely due to these conferences. The total expense to the Association for this meeting was \$621.81, which included railroad fare, expenses *en route*, and two days' board in Boston.

The Board of Directors at its meeting July 9, 1903, voted to authorize the Executive Committee to continue this plan and to incur the necessary expense.

#### THE OFFICE AND DEPOSITORY

Permit me to recall your action at the Minneapolis convention authorizing the chairman of your Board to enter into an agreement to pay rent for offices, including a depository for the publications of the Association, on condition that I should build an addition to my residence suitable for such purposes. In accordance with this agreement the addition, a two-story structure 22 X 30 feet, was completed in November, 1902, and the depository of the volumes of *Proceedings* (about fifteen thousand volumes) and other publications removed from Washington, and installed in the new depository in the following month.

The addition, which is used exclusively for offices and depository, consists of five rooms, on two floors, two halls, and stairway, and is connected with the library of my residence by a broad doorway. It is heated by hot water, and provided with both gas and electric lights. The two rooms and hallway on the first-floor are used for offices, while the depository occupies two rooms on the second floor, the third room being used as a stock- and packing-room.

Under the agreement the Association pays \$50 per month rent for the rooms, which amount includes all expenses of furnishing, lighting, heating, care, and telephone service. By this arrangement the rent of the depository at Washington and the salary of the custodian, amounting together to \$150 per annum, is discontinued.

The following table shows expenses of the Secretary's office since 1898, when the work became fully organized:

TABLE OF CLASSIFIED EXPENSES AT THE SECRETARY'S OFFICE SINCE 1898

Year	Postage	Telegrams	Freight and Express	Clerical Service	Stationery and Office Supplies	Traveling	Miscellaneous	Rent	Salary	Total
1898-1899	\$462.78	\$134.97	\$21.53	\$525.45	\$118.44	\$275.21	....	....	\$3,000	\$4,538.38
1899-1900	642.76	118.86	55.44	464.33	160.07	398.63	....	....	4,000	5,840.09
1900-1901	749.65	53.42	21.18	563.70	169.02	139.15	....	....	4,000	5,696.12
1901-1902	764.80	71.63	20.09	689.25	114.15	148.40	\$49.75	....	4,000	5,858.07
1902-1903	784.38	69.73	20.08	792.15	99.73	298.30	45.70	\$550	4,000	6,660.07

The great increase in the work of the office, especially since the Boston convention, has made necessary the increase of the clerical force, on the authority and recommendation of the Executive Committee. It will be necessary, hereafter, to employ two clerks regularly, and additional help at certain times as circumstances may demand. No small part of the increase in the office work is due to the rapid growth of the active membership, with the necessity for collecting the annual dues by correspondence of a large proportion of the members, and for verifying or revising annually for publication the educational

position, address, etc., of each member. It is worthy of note, however, that the amount of the enrollment fees alone of new members (\$2 for each member) received since the Milwaukee meeting has much more than paid for the expense of the entire clerical force of the office each year since 1897.

## SPECIAL COMMITTEES

The following special committees of investigation have been created and appropriations made for their expenses, as indicated :

## COMMITTEE ON TAXATION AS RELATED TO PUBLIC EDUCATION

James M. Greenwood, superintendent of schools, Kansas City, Mo., *chairman*.  
 Aaron Gove, superintendent of schools, Denver, Colo.  
 W. T. Harris, Commissioner of Education of the United States, Washington, D. C.  
 J. W. Carr, superintendent of schools, Anderson, Ind.  
 Newton C. Dougherty, superintendent of schools, Peoria, Ill.  
 Nathan C. Schaeffer, state superintendent of public instruction, Harrisburg, Pa.  
 William H. Maxwell, superintendent of schools, New York, N. Y.  
 Carroll G. Pearce, superintendent of schools, Omaha, Neb.  
 Charles D. McIver, president of the Normal and Industrial College, Greensboro, N. C.  
 Frank A. Fitzpatrick, 93 Summer St., Boston, Mass.

This committee was appointed at the Minneapolis meeting in 1902 (see Minutes, Minneapolis volume of *Proceedings*, pp. 34, 311-13). The committee is under instructions to make a printed report to the National Council not later than 1904, unless otherwise directed, and the sum of \$1,000, or so much thereof as may be necessary, was appropriated for the expenses of the committee.

## COMMITTEE ON THE NATIONAL BUREAU OF EDUCATION

Nicholas Murray Butler, president of Columbia University, *chairman*.  
 Newton C. Dougherty, superintendent of schools, Peoria, Ill.  
 Andrew S. Draper, president of University of Illinois, Champaign, Ill.  
 Aaron Gove, superintendent of schools, Denver, Colo.  
 G. R. Glenn, ex-state school commissioner of Georgia, Atlanta, Ga.  
 E. Oram Lyte, president of the State Normal School, Millersville, Pa.  
 Together with the United States Commissioner of Education.

This committee was first appointed by the Department of Superintendence at its annual meeting in Chicago in 1900, "to aid the Bureau of Education, in whatever way they find it practicable, to accomplish its work" (see Minutes of Department of Superintendence, Charleston volume of *Proceedings*, p. 185).

At a meeting of the National Council July 6, 1903, the Committee on Investigations and Appropriations reported at length on the desirability of strengthening the Bureau of Education, and of enlarging its organization and facilities with the view of securing its erection into a separate administrative department, and its adequate equipment and financial support (see Minutes of Council, Boston volume of *Proceedings*, pp. 306, 309).

The committee already appointed by the Department of Superintendence, as above stated, was approved and continued by the Council; and an appropriation of \$1,000, or so much thereof as may be necessary for the expenses of the committee, was authorized by the Board of Directors at its meeting July 9, 1900 (see Minutes of Board of Directors, Boston volume of *Proceedings*, pp. 36, 37, 38).

## COMMITTEE ON CONTEMPORARY EDUCATIONAL DOCTRINE

Paul H. Hanus, Harvard University, Cambridge, Mass., *chairman*.

It is believed that the excellent programs and the unusually successful department meetings at the Boston convention were largely due to these conferences. The total expense to the Association for this meeting was \$621.81, which included railroad fare, expenses *en route*, and two days' board in Boston.

The Board of Directors at its meeting July 9, 1903, voted to authorize the Executive Committee to continue this plan and to incur the necessary expense.

#### THE OFFICE AND DEPOSITORY

Permit me to recall your action at the Minneapolis convention authorizing the chairman of your Board to enter into an agreement to pay rent for offices, including a depository for the publications of the Association, on condition that I should build an addition to my residence suitable for such purposes. In accordance with this agreement the addition, a two-story structure 22 X 30 feet, was completed in November, 1902, and the depository of the volumes of *Proceedings* (about fifteen thousand volumes) and other publications removed from Washington, and installed in the new depository in the following month.

The addition, which is used exclusively for offices and depository, consists of five rooms, on two floors, two halls, and stairway, and is connected with the library of my residence by a broad doorway. It is heated by hot water, and provided with both gas and electric lights. The two rooms and hallway on the first-floor are used for offices, while the depository occupies two rooms on the second floor, the third room being used as a stock- and packing-room.

Under the agreement the Association pays \$50 per month rent for the rooms, which amount includes all expenses of furnishing, lighting, heating, care, and telephone service. By this arrangement the rent of the depository at Washington and the salary of the custodian, amounting together to \$150 per annum, is discontinued.

The following table shows expenses of the Secretary's office since 1898, when the work became fully organized:

TABLE OF CLASSIFIED EXPENSES AT THE SECRETARY'S OFFICE SINCE 1898

Year	Postage	Telegrams	Freight and Express	Clerical Service	Stationery and Office Supplies	Traveling	Miscellaneous	Rent	Salary	Total
1898-1899 .....	\$462.78	\$134.97	\$21.53	\$525.45	\$118.44	\$275.21	....	....	\$3,000	\$4,538.38
1899-1900 .....	642.76	118.86	55.44	464.33	160.07	398.63	....	....	4,000	5,840.09
1900-1901 .....	749.65	53.42	21.18	563.70	169.02	139.15	....	....	4,000	5,606.12
1901-1902 .....	764.80	71.63	20.09	689.25	114.15	148.40	\$49.75	....	4,000	5,858.07
1902-1903 .....	784.38	69.73	20.08	792.15	99.73	298.30	45.70	\$550	4,000	6,660.07

The great increase in the work of the office, especially since the Boston convention, has made necessary the increase of the clerical force, on the authority and recommendation of the Executive Committee. It will be necessary, hereafter, to employ two clerks regularly, and additional help at certain times as circumstances may demand. No small part of the increase in the office work is due to the rapid growth of the active membership, with the necessity for collecting the annual dues by correspondence of a large proportion of the members, and for verifying or revising annually for publication the educational

position, address, etc., of each member. It is worthy of note, however, that the amount of the enrollment fees alone of new members (\$2 for each member) received since the Milwaukee meeting has much more than paid for the expense of the entire clerical force of the office each year since 1897.

EMERSON ELBRIDGE WHITE died at his home in Columbus, O., October 21, 1902.

Dr. White was born in Mantua, Portage county, O., January 10, 1829. His boyhood days were spent on the farm, and his early education was obtained in rural schools. At the age of seventeen he taught a winter school, and the following year entered Twinsbury Academy. Later he was for one year principal of Mount Union Academy, now Mount Union College. While a student in Cleveland University he served as instructor in mathematics in the college, and later as teacher in one of the city schools of Cleveland. After graduating, he served for four years as principal of a grammar school, and was then appointed principal of the Central High School of Cleveland. In 1856 he resigned the principalship of the Cleveland High School to accept the superintendency of the schools of Portsmouth, O. In 1861 he removed to Columbus to take charge of the *Ohio Educational Monthly*, which he conducted for fifteen years. In 1863 he was elected state commissioner of common schools, and served three years. In 1876 he became president of Purdue University at Lafayette, Ind. From this position he resigned in 1883. In 1886 he was elected superintendent of schools of Cincinnati, O. He resigned in 1891, and returned to his former home in Columbus.

Association and of the National Superintendents' Association before their union in 1870. In 1866 he led the National Superintendents' Association in advocating the establishment of the National Bureau of Education, and prepared both the memorial and the bill which was introduced in Congress by General Garfield, and which subsequently became the law under which the Bureau of Education was established.

Dr. White received the degree of A.M. from Western Reserve College, and in 1876 the degree of LL.D. from Indiana State University and also from Marietta College.

A more extended sketch may be found on p. 369 of the volume of *Proceedings* of the Association for 1903, Boston meeting.
